

2026 EAP Wellbeing Coaching

Employee Assistance Program

Your resource for help with daily challenges and difficult situations

Wellbeing Coaching

Could you use support to achieve a personal or professional goal? Through your Employee Assistance Program (EAP), you have access to Wellbeing Coaching. Wellbeing coaches are certified experts who can provide confidential, unbiased support and resources to help you be accountable to achieve your goals.

How does Wellbeing Coaching work?

You define the changes you want to make, whether personal or professional. Your coach helps you clarify your goals, identify obstacles that hold you back and develop action-based solutions to achieve your goals.

You can benefit from up to six sessions per year. You meet with the same coach, at regular intervals, by phone or video for up to 45 minutes each session. Your coach serves as a guide, supporter and even cheerleader as you set goals during the first session and make progress in subsequent sessions. Your coach will assist you with problem-solving, revising your action plan as appropriate, follow-up and accountability. Coaches can also provide helpful resources and education to help you stay on track and achieve your goals.

Wellbeing Coaching can help with:

- Career or work performance
- Time management
- Achieving work-life balance
- Not getting enough sleep
- Maintaining a healthy weight
- Personal improvement

Wellbeing Coaching can result in:

- Less stress
- Increased self-confidence
- Clarity of goals
- Improved productivity
- Better life balance
- Motivation and hope

Is Wellbeing Coaching the right fit for me?

Ask yourself these questions:

- Do you want to make a positive change in your life?
- Are you willing to put in the work to make that change?

If the answer is yes to both, then Wellbeing Coaching is likely a great fit for you.

Coaching is separate from counseling and your counseling session limits do not apply.
